# 2. Hazards Identification

#### **Classification**

#### **OSHA Regulatory Status**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

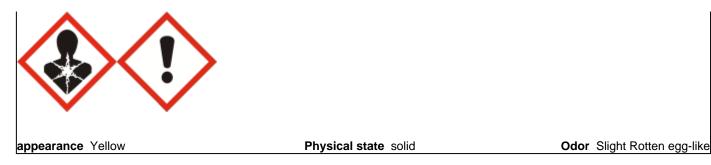

| Acute toxicity - Dermal              | Category 4 |
|--------------------------------------|------------|
| Acute toxicity - Inhalation (Vapors) | Category 4 |
| Skin sensitization                   | Category 1 |
| Reproductive Toxicity                | Category 2 |

## Label elements

#### **EMERGENCY OVERVIEW**

# WARNING

hazard statements Harmful in contact with skin May cause an allergic skin reaction Suspected of damaging fertility or the unborn child HARMFUL IF INHALED

## **Precautionary Statements - Prevention**

Do not handle until all safety precautions have been read and understood Do not handle until all safety precautions have been read and understood Wear cold insulating gloves/face shield/eye protection Do not get in eyes, on skin, or on clothing Use only outdoors or in a well-ventilated area Contaminated work clothing should not be allowed out of the workplace Wear protective gloves

#### **Precautionary Statements - Response**

IF exposed or concerned: Get medical advice/attention IF ON SKIN: Wash with plenty of soap and water Call a POISON CENTER or doctor if you feel unwell Wash contaminated clothing before reuse If skin irritation or rash occurs: Get medical advice/attention IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Call a POISON CENTER or doctor/physician

## Precautionary Statements - Storage

Store locked up Store in a well-ventilated place. Keep container tightly closed

### **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant

## Hazards Not Otherwise Classified (HNOC)

OTHER INFORMATION

Very toxic to aquatic life

May be harmful in contact with skin

## 3. Composition/information on Ingredients

| Chemical name     | CAS-No    | Weight % | Trade secret |
|-------------------|-----------|----------|--------------|
| Mancozeb          | 8018-01-7 | 75       |              |
| Ethylene thiourea | 96-45-7   | 0-0.1    |              |

If CAS number is "proprietary", the specific chemical identity and percentage of composition has been withheld as a trade secret.

## 4. First aid measures

#### FIRST AID MEASURES

| Eye contact  | Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.  |
|--------------|--|
| Skin contact | Remove contaminated clothing and shoes. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. Remove and wash contaminated clothing before re-use. |

| Inhalation   | Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. |  |
|--|---|--|
| Ingestion  | Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Call a physician or poison control center immediately.  |  |
| Most Important Symptoms and Effects, Both Acute and Delayed                |   |  |
| Most Important Symptoms and<br>Effects                                     | No information available.   |  |
| Indication of Any Immediate Medical Attention and Special Treatment Needed |   |  |
| Notes to physician   | Treat symptomatically.  |  |

5. Fire-fighting measures

# Suitable extinguishing media

Use:. Dry chemical. Carbon dioxide (CO2). Water spray. alcohol-resistant foam.

#### Unsuitable extinguishing media No information available.

#### Specific hazards arising from the chemical

No information available.

Hazardous combustion productsCarbon disulfide, ethylene thiourea (ETU). Sulfur oxides. Oxides of nitrogen. Oxides of carbon.

## Explosion data

## Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| Personal Precautions                 | Use personal protective equipment. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.   |  |
|--------------------------------------|--|--|
| Environmental Precautions            |  |  |
| Environmental precautions            | Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.  |  |
| Methods and material for containme   | ent and cleaning up  |  |
| Methods for Clean-Up                 | Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labelled containers.   |  |
|                                      | 7. Handling and Storage  |  |
| Precautions for safe handling        |  |  |
| Handling                             | Wear personal protective equipment. Do not breathe vapours or spray mist. Use only in area provided with appropriate exhaust ventilation. Use product only in closed system. |  |
| Conditions for safe storage, includi | ng any incompatibilities   |  |
| Storage                              | Keep containers tightly closed in a cool, well-ventilated place. Keep away from heat. Protect  |  |

|                               | from light. Keep in properly labelled containers.   |
|-------------------------------|---|
| incompatible materials        | Strong oxidizing agents. Acids.   |
|                               | 8. Exposure Controls/Personal Protection  |
| Exposure guidelines           | This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.   |
| Engineering controls          | When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [(40 CFR 170.240 (d) (4-6) ], the handler PPE requirements may be reduced or modified as specified in the WPS.  |
| Personal protective equipment |   |
| Eye/Face Protection           | Use eye protection to avoid eye contact. Where there is potential for eye contact have eye flushing equipment available. Safety glasses with side-shields. Goggles.   |
| Skin protection               | Wear protective gloves/clothing. Socks and footwear.  |
| Respiratory protection        | Where airborne exposure is likely, use NIOSH approved respiratory protection equipment<br>appropriate to the material and/or its components. Full facepiece equipment is<br>recommended and, if used, replaces need for face shield and/or chemical goggles. If<br>exposures cannot be kept at a minimum with engineering controls, consult respirator<br>manufacturer to determine appropriate type equipment for given application. Observe<br>respirator use limitations specified by NIOSH or the manufacturer. For emergency and<br>other conditions where there may be a potential for significant exposure, use an approved<br>full face positive-pressure, self-contained breathing apparatus. Respiratory protection<br>programs must comply with 29 CFR 1910.134. |

## General hygiene considerations

Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing before re-use. Wear suitable gloves and eye/face protection. Wash hands and face before breaks and immediately after handling the product. Avoid contact with skin, eyes and clothing.

# 9. Physical and Chemical Properties

#### **Oxidizing properties**

#### **OTHER INFORMATION**

Softening point molecular weight VOC Content density Bulk density No information available No information available No information available No information available

40-45 lb/cu ft

No information available

# 10. Stability and Reactivity

#### Reactivity no data available

 Chemical stability

 Stable under normal conditions. Hazardous polymerisation does not occur.

 Possibility of hazardous reactions

 None under normal processing.

 Conditions to avoid

 To avoid thermal decomposition, do not overheat. Keep away from children.

 incompatible materials

 Strong oxidizing agents. Acids.

 Hazardous decomposition products

 Oxides of carbon and nitrogen. Hydrogen sulfide.

# **11. Toxicological Information**

## Information on Likely Routes of Exposure

| Product information | Manzate Pro Stick :<br>Oral LD50 (rat) = >5,000 mg/kg<br>Dermal LD50 (rabbit) = > 2,000 mg/kg<br>Inhalation LC50 (rat) 4 hr = >5.4 mg/L |  |
|---------------------|---|--|
|                     | Mild to moderate eye irritant. Mild to slight skin irritant. Sensitizer .   |  |
| Inhalation          | May cause irritation of respiratory tract.  |  |
| Eye contact         | Moderately irritating to the eyes.  |  |
| Skin contact        | May be harmful if absorbed through the skin.  |  |
| Ingestion           | MAY BE HARMFUL IF SWALLOWED.  |  |

#### Persistence/Degradability

No information available.

# **Bioaccumulation/Accumulation**

No information available.

## **Other Adverse Effects**

No information available

# **13. Disposal Considerations**

#### Waste Treatment Methods

Waste Disposal Method

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If the wastes cannot be disposed of by use or according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

#### **Contaminated packaging**

Refer to product label.

# **15. Regulatory Information**

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

signal word

CAUTION

**Ventilation Control** 

PESTICIDE APPLICATORS & WORKERS THESE WORKERS MUST REFER TO

PRODUCT LABELING AND DIRECTIONS FOR USE IN ACCORDANCE WITH EPA WORKER PROTECTION STANDARD 40 CFR PART 170. Keep out of Reach of Children. Harmful if absorbed through the skin. Causes moderate eye irritation. Toxic to aquatic

organisms.
