

Safety Data Sheet

United Phosphorus, Inc.

Preparation Date 10-May-2015

Revision date 11-May-2015

Revision Number: 1

1. Identification of the Substance/Preparation and of the Company/Undertaking

Product identifier Product Description:

Phoenix T-Bird 85 WDG

Other means of identification	
Item#:	
UN-No	
Synonyms	
Registration number(s)	

12P-0012A UN3077 Not Available 70506-250

Recommended use of the chemical and restrictions on useRecommended useFungicide.Uses advised againstActivities contrary to label recomendation

2. Hazards Identification

Classification

OSHA Regulatory Status

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

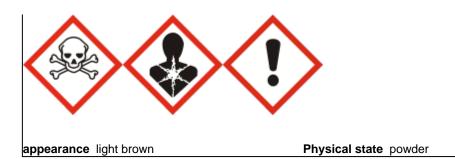

Acute toxicity - Dermal	Category 4
Acute toxicity - Inhalation (Gases)	Category 2
Acute toxicity - Inhalation (Vapors)	Category 3
Acute toxicity - Inhalation (Dusts/Mists)	Category 4
Skin sensitization	Category 1
Germ cell mutagenicity	Category 2

Label elements

EMERGENCY OVERVIEW

DANGER

hazard statements Harmful in contact with skin Fatal if inhaled May cause an allergic skin reaction Suspected of causing genetic defects

Odor Slight Rotten egg-like

Precautionary Statements - Prevention

Do not handle until all safety precautions have been read and understood Do not handle until all safety precautions have been read and understood Wear cold insulating gloves/face shield/eye protection Do not breathe dust/fume/gas/mist/vapors/spray Use only outdoors or in a well-ventilated area In case of inadequate ventilation wear respiratory protection Contaminated work clothing should not be allowed out of the workplace Wear protective gloves

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention IF ON SKIN: Wash with plenty of soap and water Call a POISON CENTER or doctor if you feel unwell Wash contaminated clothing before reuse If skin irritation or rash occurs: Get medical advice/attention IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Immediately call a POISON CENTER or doctor/physician

Precautionary Statements - Storage

Store locked up Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

Hazards Not Otherwise Classified (HNOC)

OTHER INFORMATION

• Very toxic to aquatic life with long lasting effects

Very toxic to aquatic life

May be harmful in contact with skin

3. Composition/information on Ingredients

Chemical name	CAS-No	Weight %	Trade secret
Thiophanate-methyl	23564-05-8	85	
Kaolinite, Hydrous Aluminum Silicate	1332-58-7	1.12	

If CAS number is "proprietary", the specific chemical identity and percentage of composition has been withheld as a trade secret.

4. First aid measures

FIRST AID MEASURES

Eye contact	Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Skin contact	Wash off immediately with plenty of water for at least 15 minutes. Call poison control center

Methods for Clean-Up

Handling

Precautions for safe handling

Conditions for safe storage, including any incompatibilities

	or doctor for treatment advice.		
Inhalation	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.		
Ingestion	Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Clean mouth with water and drink afterwards plenty of water afterwards. Call a physician.		
Most Important Symptoms and Ef	fects, Both Acute and Delayed		
Most Important Symptoms and Effects	No information available.		
Indication of Any Immediate Medi	cal Attention and Special Treatment Needed		
Notes to physician	Treat symptomatically.		
	5. Fire-fighting measures		
Suitable extinguishing media			
Use:. Dry chemical. Carbon dioxide	(CO2). Water spray. alcohol-resistant foam.		
Unsuitable extinguishing med	lia No information available.		
Specific hazards arising from the No information available.	<u>chemical</u>		
Hazardous combustion produ	ctsNo information available.		
Explosion data Protective equipment and precaut Use personal protective equipment. (approved or equivalent) and full pro-	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH		
	6. Accidental release measures		
Personal precautions, protective	equipment and emergency procedures		
Personal Precautions	Avoid contact with the skin and the eyes. Wear protective gloves/clothing and eye/face protection. Wash thoroughly after handling.		
Environmental Precautions			
Environmental precautions	Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinenet environmental permits.		
Methods and material for contain	ment and cleaning up		

PAGE 3/9

Sweep up and shovel into suitable containers for disposal.

Wash thoroughly after handling. Keep out of reach of children.

Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product.

7. Handling and Storage

Storage

Keep containers tightly closed in a cool, well-ventilated place.

incompatible materials

Strong oxidizing agents.

8. Exposure Controls/Personal Protection

Exposure guidelines

Chemical name	ACGIH TLV	OSHA PEL	
Kaolinite, Hydrous Aluminum Silicate	TWA: 2 mg/m ³ particulate matter containing no asbestos and <1% crystalline silica, respirable fraction	TWA: 15 mg/m ³ total dust TWA: 5 mg/m ³ respirable fraction (vacated) TWA: 10 mg/m ³ total dust (vacated) TWA: 5 mg/m ³ respirable fraction	
Engineering controls	Investigate engineering techniques to reduce exposures. Local mechanical exhaust ventilation is preferred. Consult ACGIH ventilation manual or NFPA Standard 91 for design of exhaust systems.		
Personal protective equipment			
Eye/Face Protection	Use eye protection to avoid eye contact. Where there is potential for eye contact have eye flushing equipment available. Safety glasses with side-shields.		
Skin protection	Wear protective gloves/clothing. Socks and footwear.		
Respiratory protection	Wear protective gloves/clothing. Socks and footwear. Where airborne exposure is likely, use NIOSH approved respiratory protection equipment appropriate to the material and/or its components. Full facepiece equipment is recommended and, if used, replaces need for face shield and/or chemical goggles. If exposures cannot be kept at a minimum with engineering controls, consult respirator manufacturer to determine appropriate type equipment for given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where there may be a potential for significant exposure, use an approved full face positive-pressure, self-contained breathing apparatus. Respiratory protection programs must comply with 29 CFR 1910.134.		

General hygiene considerations

Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing before re-use. Wear suitable gloves and eye/face protection. Wash hands before breaks and immediately after handling the product.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical state appearance color	powder light brown No information available	Odor	Slight Rotten egg-like
Property_	VALUES	Remarks/ • Method	
рН	7.22		
Melting point/freezing point	172 °C / 342 °F		
Boiling Point/Range	No information available		
Flash Point	No information available		
Evaporation Rate	No information available		
flammability (solid, gas)	No information available		
Flammability limit in air			
Upper Flammability Limit	No information available		
Lower Flammability Limit	No information available		
vapor pressure	7.12 X 10-8 mmHg(tech)		
Vapor Density	No information available		
Specific gravity	No information available		
Water solubility	No information available		
Solubility in Other Solvents	No information available		
Partition coefficient: n-octanol/wate	erNo information available		
Autoignition temperature	No information available		

decomposition temperature	No information available
Viscosity, kinematic	No information available
Dynamic viscosity	No information available
Explosive properties	No information available
Oxidizing properties	No information available
OTHER INFORMATION	
Softening point	No information available
molecular weight	No information available
VOC Content	No information available
density	No information available

10. Stability and Reactivity

Reactivity no data available

Bulk density

Chemical stability Stable under normal conditions. Hazardous polymerisation does not occur. Possibility of hazardous reactions None under normal processing. Conditions to avoid No information available. incompatible materials Strong oxidizing agents. Hazardous decomposition products No information available.

28.8-30.3 lb/ft3

11. Toxicological Information

Information on Likely Routes of Exposure

Product information	Oral: Practically non-toxic Dermal: No more than slig Inhalation: SLightly toxic to Skin Irritation: Non-irritating Skin allergy was observed long-term oral administrati and dogs. An increased in were observed in male rat No effects were seen on th for 2 successive generation exposed orally during press	 Single exposure studies indicate: Oral: Practically non-toxic to rats (LD50 >5,000 mg/kg) Dermal: No more than slightly toxic to rabbits (LD50 >2,000 mg/kg) Inhalation: SLightly toxic to rats (4 hr LC50 1.8 mg/l) Skin Irritation: Non-irritating to rabbits Eye Irritation: Non-irritating to rabbits Skin allergy was observed in guinea pigs following repeated exposure. Repeated or long-term oral administration produced effects on the thyroid, liver or kidneys in rats, mice and dogs. An increased incidence of liver tumors was observed in mice and thyroid tumors were observed in male rats following long-term oral exposure. No effects were seen on the ability of male or female rats to reproduce when exposed orally for 2 successive generations. No birth defects were observed in the offspring of rats exposed orally during pregnancy. In rabbits, developmental effects were noted only at maternally toxic doses. No genetic changes were observed in tests using animal cells. 		
Inhalation	Harmful by inhalation.	Harmful by inhalation.		
Eye contact	Moderately irritating to the	Moderately irritating to the eyes.		
Skin contact	May be harmful if absorbed through the skin.			
Ingestion	MAY BE HARMFUL IF SWALLOWED.			
Chemical name	LD50 Oral	LD50 Dermal	LC50 Inhalation	
Thiophanate-methyl	-	-	= 1700 mg/m ³ (Rat) 4 h	

Information on Toxicological Effects

23564-05-8

Symptoms

No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

sensitization	No information available.
Mutagenic effects	No information available.
Carcinogenicity	The information below indicates whether any agency has listed any ingredient as a carcinogen.
Reproductive effects	Not Available.
STOT - Single Exposure	No information available.
STOT - repeated exposure	No information available.
Chronic toxicity	Avoid repeated exposure.
Target organ effects	Respiratory System, EYES.
Aspiration hazard	No information available.
-	

Numerical Measures of Toxicity - Product information

LD50 Oral	> 5000 mg/kg (rat)
LD50 Dermal	> 2000 mg/kg (rat)
LC50 Inhalation:	LC50/inhalation/4h/rat = 1.8 mg/l 60.89214

12. Ecological Information

ecotoxicity

Thiophanate methyl methyl Carp 96 hr LC50 = >100 mg/L Fiddler crab 96 hr LC50 = >560 mg/L Bluegill 96 hr LC50 = 15.8 mg/L Daphnid 48 hr EC50 = 15.6 mg/L Shrimp 96 hr LC50 = 25.1 mg/L Trout 96 hr LC50 - 2.2 mg/L Oyster 96 hr LC50 = 4.6 ppm Highly toxic to catfish

Persistence/Degradability

No information available.

Bioaccumulation/ Accumulation

No information available.

Other Adverse Effects

No information available

13. Disposal Considerations

Waste Treatment Methods

Waste Disposal Method

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If the wastes cannot be disposed of by use or according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Contaminated packaging

Refer to product label.

15. Regulatory Information

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

signal word CAUTION

Ventilation Control

PESTICIDE APPLICATORS & WORKERS THESE WORKERS MUST REFER TO PRODUCT LABELING AND DIRECTIONS FOR USE IN ACCORDANCE WITH EPA WORKER PROTECTION STANDARD 40 CFR PART 170.

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals.
