

Safety Data Sheet

United Phosphorus, Inc.

Preparation Date 10-May-2015

Revision date 11-May-2015

Revision Number: 1

1. Identification of the Substance/Preparation and of the Company/Undertaking

Product identifier Product Description:

Phoenix T-Bird 4.5 L

Other means of identification Item#: UN-No Synonyms Registration number(s)

12P-0012 UN3082 Not Available 70506-251

Recommended use of the chemical and restrictions on useRecommended useFungicide.Uses advised againstActivities contrary to label recomendation

 Details of the Supplier of the Safety Data Sheet

 Supplier Address

 UPI

 630 Freedom Business Center

 Suite 402

 King of Prussia, PA 19406

 Emergency telephone number

 Company Phone Number

2. Hazards Identification

Classification

OSHA Regulatory Status

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

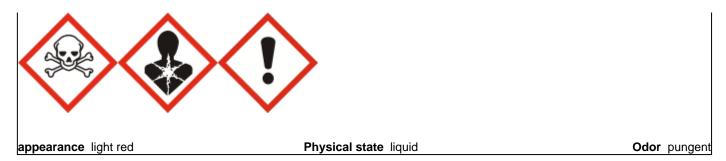

Acute toxicity - Dermal	Category 4
Acute toxicity - Inhalation (Gases)	Category 2
Acute toxicity - Inhalation (Vapors)	Category 3
Acute toxicity - Inhalation (Dusts/Mists)	Category 4
Skin sensitization	Category 1
Germ cell mutagenicity	Category 2

Label elements

EMERGENCY OVERVIEW

DANGER

hazard statements Harmful in contact with skin Fatal if inhaled May cause an allergic skin reaction Suspected of causing genetic defects

Precautionary Statements - Prevention

Do not handle until all safety precautions have been read and understood Do not handle until all safety precautions have been read and understood Wear cold insulating gloves/face shield/eye protection Do not breathe dust/fume/gas/mist/vapors/spray Use only outdoors or in a well-ventilated area In case of inadequate ventilation wear respiratory protection Contaminated work clothing should not be allowed out of the workplace Wear protective gloves

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention IF ON SKIN: Wash with plenty of soap and water Call a POISON CENTER or doctor if you feel unwell Wash contaminated clothing before reuse If skin irritation or rash occurs: Get medical advice/attention IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Immediately call a POISON CENTER or doctor/physician

Precautionary Statements - Storage

Store locked up Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

Hazards Not Otherwise Classified (HNOC)

OTHER INFORMATION

• Very toxic to aquatic life with long lasting effects

• Very toxic to aquatic life

May be harmful in contact with skin

3. Composition/information on Ingredients

Chemical name	CAS-No	Weight %	Trade secret
Thiophanate-methyl	23564-05-8	45	

If CAS number is "proprietary", the specific chemical identity and percentage of composition has been withheld as a trade secret.

4. First aid measures

FIRST AID MEASURES

Eye contact	Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Skin contact	Wash off immediately with plenty of water for at least 15 minutes. Call poison control center or doctor for treatment advice.

Inhalation	Move to fresh air in case of accidental inhalation of vapors or decomposition products. If symptoms persist, call a physician. Immediate medical attention is required. Call a physician or poison control center immediately. Toxic by inhalation.
Ingestion	Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Call a physician. Clean mouth with water and drink afterwards plenty of water afterwards.
Most Important Symptoms and Ef	fects, Both Acute and Delayed
Most Important Symptoms and	No information available.

Indication of Any Immediate Medical Attention and Special Treatment Needed

Notes to physician

Effects

Treat symptomatically.

5. Fire-fighting measures

Suitable extinguishing media

Carbon dioxide (CO2).

Use:. Dry chemical. Water spray. alcohol-resistant foam.

Unsuitable extinguishing media No information available.

Specific hazards arising from the chemical

Thermal decomposition can lead to release of irritating gases and vapours.

Hazardous combustion productsNo information available.

Explosion data

Protective equipment and precautions for firefighters

Use personal protective equipment. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Avoid contact with the skin and the eyes. Wear protective gloves/clothing and eye/face protection. Wash thoroughly after handling.		
Environmental Precautions			
Environmental precautions	Consult a regulatory specialist to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinenet environmental permits.		
Methods and material for containme	ent and cleaning up		
Methods for Clean-Up	Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Sweep up and shovel into suitable containers for disposal.		
	7. Handling and Storage		

Precautions for safe handling

Handling

Wear personal protective equipment. Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product. Keep out of reach of children. Wash thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Storage	Keep out of the reach of children. Keep in a dry, cool and well-ventilated place. Strong oxidizing agents.		
incompatible materials			
	8. Exposure Controls/Personal Protection		
Exposure guidelines	This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.		
Engineering controls	Investigate engineering techniques to reduce exposures. Local mechanical exhaust ventilation is preferred. Consult ACGIH ventilation manual or NFPA Standard 91 for design of exhaust systems.		
Personal protective equipment			
Eye/Face Protection	Use eye protection to avoid eye contact. Where there is potential for eye contact have eye flushing equipment available. Safety glasses with side-shields.		
Skin protection	Wear protective gloves/clothing. Socks and footwear.		
Respiratory protection	Where airborne exposure is likely, use NIOSH approved respiratory protection equipment appropriate to the material and/or its components. Full facepiece equipment is recommended and, if used, replaces need for face shield and/or chemical goggles. If exposures cannot be kept at a minimum with engineering controls, consult respirator manufacturer to determine appropriate type equipment for given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where there may be a potential for significant exposure, use an approved full face positive-pressure, self-contained breathing apparatus. Respiratory protection programs must comply with 29 CFR 1910.134.		

General hygiene considerations

Do not eat, drink or smoke when using this product. Wear suitable gloves and eye/face protection. Wash hands before breaks and immediately after handling the product.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical state appearance color	liquid light red No information available	Odor	pungent
Property pH Melting point/freezing point Boiling Point/Range Flash Point Evaporation Rate flammability (solid, gas) Flammability limit in air Upper Flammability Limit Lower Flammability Limit vapor pressure Vapor Density Specific gravity Water solubility Solubility in Other Solvents Partition coefficient: n-octanol/water Autoignition temperature decomposition temperature Viscosity, kinematic Dynamic viscosity Explosive properties	VALUES 6 7 °C / 45 °F No information available No information available No information available No information available No information available No information available No information available 1.1974 No information available No information available	<u>Remarks/ • Method</u>	

Oxidizing properties

OTHER INFORMATION

Softening point molecular weight VOC Content density Bulk density No information available

No information available No information available No information available No information available 9.974 lb/gal

10. Stability and Reactivity

Reactivity no data available

Chemical stabilityStable under normal conditions. Hazardous polymerisation does not occur.Possibility of hazardous reactionsNone under normal processing.Hazardous polymerizationHazardous polymerisation does not occur.

<u>Conditions to avoid</u> No information available. <u>incompatible materials</u> Strong oxidizing agents. <u>Hazardous decomposition products</u> Carbon oxides.

11. Toxicological Information

Information on Likely Routes of Exposure

Product information	Single exposure studies indicate: Oral: Practically non-toxic to rats (LD50 >5,000 mg/kg) Dermal: No more than slightly toxic to rabbits (LD50 >2,000 mg/kg) Inhalation: SLightly toxic to rats (4 hr LC50 1.8 mg/l) Skin Irritation: Non-irritating to rabbits Eye Irritation: Non-irritating to rabbits Skin allergy was observed in guinea pigs following repeated exposure. Repeated or long-term oral administration produced effects on the thyroid, liver or kidneys in rats, mice and dogs. An increased incidence of liver tumors was observed in mice and thyroid tumors were observed in male rats following long-term oral exposure. No effects were seen on the ability of male or female rats to reproduce when exposed orally for 2 successive generations. No birth defects were observed in the offspring of rats exposed orally during pregnancy. In rabbits, developmental effects were noted only at maternally toxic doses. No genetic changes were observed in tests using animal cells. Polyglycol Repeated exposure of rats to aerosol of some block polymers produced an inflammatory response and slight fibrosis in the lung. Long-term dietary administration of a block polymer to dogs produced no adverse effects. Some block polymers have produced genetic changes in tests using basteria or animal cells. Single exposure studies indicate that this material is practically non-toxic if swallowed (mouse LD50 >15,000 mg/kg) or absorbed through skin (rabbit LD50 2,000 mg/kg) moderately toxic if inhaled (rat 4 hr LC50 0.1-0.34 mg/l) and practically non irritating to rabbit eyes (10% aqueous solution).
Inhalation	HARMFUL IF INHALED.
Eye contact	May cause irritation.
Skin contact	May be harmful if absorbed through the skin.

Ingestion

MAY BE HARMFUL IF SWALLOWED.

Chemical name	LD50 Oral	LD50 Dermal	LC50 Inhalation
Thiophanate-methyl 23564-05-8	-	-	= 1700 mg/m³ (Rat) 4 h

Information on Toxicological Effects

Symptoms

No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

sensitization	No information available.
Mutagenic effects	No information available.
Carcinogenicity	There are no known carcinogenic chemicals in this product.
Reproductive effects	Not Available.
STOT - Single Exposure	No information available.
STOT - repeated exposure	No information available.
Chronic toxicity	Avoid repeated exposure.
Aspiration hazard	No information available.

Numerical Measures of Toxicity - Product information

LD50 Oral	5000 mg/kg (rat)
LD50 Dermal	> 2000 mg/kg (rat)
LC50 Inhalation:	LC50/inhalation/4h/rat = 1.8 mg/l 3.1936

12. Ecological Information

ecotoxicity

Thiophanate methyl methyl Carp 96 hr LC50 = >100 mg/L Fiddler crab 96 hr LC50 = >560 mg/L Bluegill 96 hr LC50 = 15.8 mg/L Daphnid 48 hr EC50 = 15.6 mg/L Shrimp 96 hr LC50 = 25.1 mg/L Trout 96 hr LC50 - 2.2 mg/L Oyster 96 hr LC50 = 4.6 ppm Highly toxic to catfish

Persistence/Degradability

No information available.

Bioaccumulation/Accumulation

Does not bioaccumulate.

Other Adverse Effects

No information available

13. Disposal Considerations

Waste Treatment Methods

Waste Disposal Method

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If the wastes cannot be disposed of by use or according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Contaminated packaging

Refer to product label.

15. Regulatory Information

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

signal word	CAUTION
Ventilation Control	PESTICIDE APPLICATORS & WORKERS THESE WORKERS MUST REFER TO PRODUCT LABELING AND DIRECTIONS FOR USE IN ACCORDANCE WITH EPA WORKER PROTECTION STANDARD 40 CFR PART 170.
Harmful if inhaled or absorbed thro	ugh skin.
